

Figure 203. Mean depth of instrument deployment at NERR sites between 1996-1998.
Note: For each Reserve, the first site is labeled and the second site is not labeled.

Figure 204. Water temperature extremes at NERR sites with year-round sampling, 1996-1998.
Note: For each Reserve, the first site is labeled and the second site is not labeled.

Figure 205. Mean, maximum, and minimum salinity at NERR sites between 1996-1998.
Note: For each Reserve, the first site is labeled and the second site is not labeled.

Figure 206. Mean hypoxia and supersaturation during the first 48 hours post-deployment for sites in Jul-Aug 1997 and 1998. If sites did not collect data in both years, no data are listed.
Note: The first site for each reserve is labeled and the second site is not labeled.
